

## Planting at Oakwell Hall

A group of girls from 2nd Liversedge Guides spent part of their May half term holiday planting flower beds and tubs at Oakwell Hall Country Park. As part of their Camp Permit that 2 of the Guides worked towards over the 2 nights away, the whole group spent Friday afternoon at the Park planting flowers for the public to enjoy. One of the Park Rangers Emma Crowley even arranged for the girls to plant flowers in the shape of a 100 shape to highlight the Girlguiding Centenary Year.

Guide Leader Cathy Scott said 'I am really proud of the Guides to give up their holiday to work so hard at Oakwell. The camp was a great challenge to all the girls who took part and not only did they enjoy some girl-only time, they worked on a project that will benefit so many people in the community. During the weekend that was spent at Fan Woods Scout and Guide Campsite, the Guides also took part in the onsite camp activities including the Nightline challenge. Jessica Heslop and Leah Cutler, who are both only 12 years old, were successful in gaining their Guide Camp Permit and also an adventurous instructor permit for the Nightline activity. Well done girls!' [Click here for photo](#)
